

GM-40200T1 - GranuMin - #40 + #200

General Information

Presentation	100 lb (sack)	50 lb (sack)	Big Bag	Bulk
Availability	✓	✓	✓	✓
Code	GM-40200T1100	GM-40200T150	GM-40200T1-BB	GM-40200T1
Qualities available*	T1	T1	T1	T1

Colors: White

Technical Information

Total Alkalinity (as Na₂O) ASTM D-1208.....0.04%
 Bulk Density (ASTM D-1895).....82.62 lb/ft³
 Moisture..... 0.15%
 Acid Insoluble..... 0.14%
 pH (ASTM D-1208)..... 10.22
 Particle Shape (Microscope)..... Geometric
 Dry Brightness (Hunter Reflectance)..... 86.91

Typical Chemical Analysis

Calcium Carbonate..... 95.50%
 Magnesium Oxide..... 1.64%
 Silica..... 1.91%
 Aluminium oxide..... 0.04%
 Ferric oxide 0.68%
 Potassium Oxide..... 0.01%
 Sodium Oxide..... 0.02%
 Sulphates..... > .10 %
 Lead > 10 (mg/kg)

Sieve Information

% Accumulated retained

Mesh -#40 + #200 95%
 below - #200 5%

Market Applications

- Textured wall finishes
- Water Filtrations
- Acid Neutralization
- Welding Rods
- Textured Stuccos
- Floor coatings
- Epoxy coatings
- Abrasive Compounds
- Expanded foam

*Qualities available: S= Supreme P1= Premium 1 P2= Premium 2
 T1= Type 1 T2 = Type 2 NC= Non classified

Calcium Carbonate is subject to normal variations related to the deposits from which it is extracted.
