

# 3P - PoolMin- 3P Professional Pool Plaster Green

## General Information

Presentation	100 lb (sack)	50 lb (sack)	Big Bag	Bulk
Availability	✓	N/A	N/A	N/A
Code	3P Green			
Qualities available*	N/A			

Colors: Green

## Technical Information

Total Alkalinity (as Na <sub>2</sub> O) ASTM D-1208.....	< .01
Bulk Density (ASTM D-1895).....	76.99 lb/ft <sup>3</sup>
Moisture.....	0.43 %
Acid Insoluble.....	82.70%
pH (ASTM D-1208).....	9.62
Particle Shape (Microscope).....	Irregular
Dry Brightness (Hunter Reflectance).....	N/A

## Typical Chemical Analysis

Calcium Carbonate.....	9.08 %
Magnesium Oxide.....	2.26 %
Silica.....	63.23 %
Aluminium oxide.....	15.95 %
Ferric oxide.....	4.33 %
Potassium Oxide.....	2.93 %
Sodium Oxide.....	2.22 %
Sulphates.....	0.00 %
Lead.....	0.00 %

## Sieve Information

% Accumulated retained

Mesh #200 ≥ 88%

## Market Applications

- Pool Plastering

\*Qualities available: S= Supreme P1= Premium 1 P2= Premium 2  
T1= Type 1 T2= Type 2 NC= Non classified

Calcium Carbonate is subject to normal variations related to the deposits from which it is extracted.
