

# MCM-525 - Medium CoarseMin - 1/2" + 1/4"

## General Information

Presentation	100 lb (sack)	50 lb (sack)	Big Bag	Bulk
Availability	N/A	N/A	✓	✓
Code			MCM-525S-BB MCM-525P2-BB MCM-525T2-BB MCM-525P1-BB MCM-525T1-BB MCM-525NC-BB	MCM-525S MCM-525P2 MCM-525T2 MCM-525P1 MCM-525T1 MCM-525NC
Qualities available*			S, P1, P2, T1, T2, NC	S, P1, P2, T1, T2, NC

Colors: White

## Technical Information

Total Alkalinity (as Na <sub>2</sub> O) ASTM D-1208.....	0.04%
Bulk Density (ASTM D-1895).....	82.06 lb/ft <sup>3</sup>
Moisture.....	0.15%
Acid Insoluble.....	0.14%
pH (ASTM D-1208).....	10.22
Particle Shape (Microscope).....	Geometric
Dry Brightness (Hunter Reflectance).....	N/A

## Typical Chemical Analysis

Calcium Carbonate.....	95.50%
Magnesium Oxide.....	1.64%
Silica.....	1.91%
Aluminium oxide.....	0.04%
Ferric oxide .....	0.68%
Potassium Oxide.....	0.01%
Sodium Oxide.....	0.02%
Sulphates.....	> .10 %
Lead .....	> 10 (mg/kg)

## Sieve Information

% Accumulated retained

Size -1/2" + 1/4".....	90%
Below - 1/4".....	10%

## Market Applications

- Landscaping
- Garden Decoration
- Decorative Concrete

\*Qualities available: S= Supreme P1= Premium 1 P2= Premium 2  
T1= Type 1 T2 = Type 2 NC= Non classified

Calcium Carbonate is subject to normal variations related to the deposits from which it is extracted.
